

Dots 'n Details Focuses on Simplicity, Service and Saving Money.

Dots 'n Details Focuses on Simplicity, Service and Saving Money.

Like many women, Scrapbooking has been an essential creative outlet for me over the years. But, after having three children in 18 months I have struggled to find time to Scrapbook. When I tried to get back into it I found that the ideas, while beautiful, were a bit overwhelming as many of them represented 40+ hours worth of work. I became determined to find a way that I could still express myself through paper crafting, and create lovely guilt-free scrapbooks. With this in mind, we created a new type of online scrapbooking site called Dots 'n Details which combines two of my great loves, crafting and saving money. The site was designed for the everyday mom who loves great style, needs a creative outlet, and who doesn't always have the time or interest in completing complicated pages.

Dots 'n Details carries all my favorite brands like American Crafts, Making Memories, Cosmo Cricket, Sassafras Lass, Inkadinkadoo, Heidi Swapp, Creating Keepsakes, Disney and EK Success to name a few. With over 16,000 scrapbooking and paper-crafting products and more being added each month we are sure to have something for everyone.

What is a Scrapbooking Price Club?

Everyone is welcome to shop at Dots 'n Details, but if you become a member you are able to purchase products at special discounted prices. So, forget stocking up on coupons you can only use once. Dots 'n Details gives members big discounts on every product, every day! Our mission is simple, keep costs down and pass the savings on to our loyal customers.

Dots 'n Details Focuses on Simplicity

Life is complicated, so when you're at Dots 'n Details, think simple. We've worked hard to design a website that feels clean, is beautiful and fun, just like a great scrapbook! Finding products that work perfectly together can often be very time consuming so we've given you a head start by grouping coordinated products by manufacturer with coordinating colors, patterns, and texture to make shopping a snap. We ship your order quickly, usually within 24 hours, and make returns easy so you have more time to scrapbook your memories.

A Place to Connect

We are also working hard to build a community that will include blogs and layouts from a talented design team who understand our vision to help the time crunched woman. We are also working on bringing you inspiration and discounts on more than scrapbooking. If you are like me, you love to use your paper crafting skills to plan parties, make cards, create art projects, decorate your home, and so much more.

The site encourages you to share your experience with product ratings and reviews. This helps build the community and allows others to share in the collective experience.

Buying Made Easy

The site is user-friendly and easy to navigate. You can shop by category, shop by brand, shop by theme, shop by coordinates or "What's New". Our growing customer base, combined with our goal to save our members money on the products they love, result in the best possible prices and an unbeatable value. Your memories are priceless, we just make sure they are also priced less.
