

## How to Download Youtube Video

In 2005, Youtube was created and since then it has reached the astonishing number of more than eighty million users a day. Almost sixty- five thousand videos are added daily on Youtube and the number is rising each day. Youtube is the web site where you can find anything from TV videos to personal footage from different users.

However, the downside of this incredible web site is that you can't download the videos you watch or at least that is what most users believe. Actually, it is very easy to download videos from Youtube. All you have to do is use a Youtube video downloader. This downloader is very easy to use and it is free. If you have always wondered how to download Youtube video, now you needn't ask yourself that anymore. All it takes is that you access a certain web site and, in a few minutes' time you can download any video you like.

Yes, it is that easy! There are sites that allow you to download your favorite Youtube videos. These sites are also known as Youtube video downloaders and they are very easy to use. When you see a video that you like on Youtube or any other video sharing site, you only have to copy the URL of the video, paste it on the Youtube video downloader and click 'download video'. In just a few minutes, you can have the video on your computer.

There are millions of videos on Youtube and some of these videos are very hard to find on other sites. Millions of users long on daily to watch some of their favorite videos or upload new ones and this is what makes Youtube so great. Some of the videos that are posted on this web site are from people's personal collection and cannot be found on other sites. This is the reason why most users have always wondered how to download video from youtube because it is one thing to watch them when you get the chance and quite another thing to have them on your computer and watch them whenever you like. Youtube video downloader represents the means of having your favorite Youtube videos on your computer.

Although Youtube is home to millions of videos, you can't download any of them from this site. However, there are other web sites that allow you to do what Youtube will not: download the videos. Youtube video downloader is a site especially created for users who want to have their favorite videos on their computer and share them with their friends or family.

There are many times when you do not have Internet access for various reasons. This prevents you from watching youtube videos. There are many times when you want to watch a certain video on Youtube and you can't find it. This is again unfortunate for you. There are many times when you are just tired of searching for the video you like. For all these situations there is a solution. Youtube video downloader gives you the opportunity to watch your favorite videos whenever you like. Just by copying the url of the video in the field of the site and clicking download, you can have any Youtube video on your computer. This is how you can download youtube video.
