

## Top 7 Tips for Selecting Proper Wedding Favour Boxes

### Tip # 1

Take care of the constraints imposed by the nature of the gift while packaging. For example, if the gift is made of glass, you need a holder inside the cage. It is elegant to use small dummy lanterns to hold small bottles of whiskey. If the box shield is opaque but the gift inside requires special care, it might be mishandled by the guests. Hence, the box or bag must not be misleading.

If the proper style is not available in the market, you can order the custom ones from small home-based businesses of UK, who are specialized in production and delivery of gifts and boxes as per specifications of buyers.
