

## The Platinum Card Offers Access to the Best Concierge Services Possible

Top quality concierge services can turn your travel, holiday or vacation into an unforgettable experience, one that you will definitely want to relive. Concierge services are a lot more than just making sure that everything is arranged and goes according to plan. Concierge services are about granting you access to the best and most refined of all products and services. We are talking about four and five-star hotel reservations, limousine or taxi reservations, luxury car rentals, travel ticket reservations, chartered yachts, private jets, couture dress rentals, personal shopping, bodyguard security for VIP shows and events, food and wine specialists at your home or available online, professional chefs to prepare fine cuisine for your meals and grand receptions, skin care at home, gift and flower delivery to friends, relatives, business relations and third parties.

Concierge services are available both inside and outside the United States. Furthermore, these services address individuals, whose needs will be catered to by personal concierges, as well as corporations, whose clients will benefit from the most refined innovations.

Customers have access to either of two concierge service plans, the Elite Concierge deluxe or the Platinum Concierge deluxe. Both plans offer unique phone numbers that customers can use to access quality concierge services. In addition to the services offered through the Elite plan, the Platinum card grants access to private jet charters and international yacht charters, the "Follow Me" support system in eighty countries, discounts on particular services such as in-house chef or personal shopper, and door-to-door luggage transport. Furthermore, with the Platinum card, customers can benefit from special luxury gifts during the year, as well as gifts in luxury stores, both within the United States and in many other countries across the globe. The Elite concierge deluxe plan is for US residents only, while the Platinum card is available for clients all over the world.

The same high quality assistance is offered to corporations as well, through the corporate concierge services. Corporate clients can benefit from all the services and advantages offered, including assistance from an international concierge. If corporations decide that they want to pay for everything for their clients, they can do so by opting for the all-inclusive corporate solution, and pay an annual fixed rate per client.

As has been said before, corporate concierge services are available in the United States and in many other countries worldwide.
