

## Beverly Hills Hair Restoration – Driving the Threat Out of People's Life

'Alopecia', some of us might not be aware of this term. Actually it's a medical term used for hair loss. In the USA half of the men and women are suffering from hair loss. 30% of them have reached the hair loss stage at the age of thirty and 50% of them got it at fifty. Hair loss is not the problem from which only the people from the USA suffer, rather it's a world wide growing concern. Usually it's the age of sixty in which natural hair loss can be adjustable. But these days young generation is too suffering from this symptom. And this is simply unavoidable. There are several factors lies for 'Alopecia'. But medical science has chased this symptom like other diseases and finally got the solution.

Alopecia – a person will definitely not like to be a part of this term physically. That's why Beverly hills hair restoration is now proving to be the best way for regaining your hairs. Now-a-days this is the most acceptable and adoptable way among people to avoid their baldness. Beverly hills hair restoration has certainly changed the way for people and now the baldy people can live his/her life without any anxieties related to constant or partial hair loss. As we have already mentioned that there are several factors of hair loss. Below we will have a brief idea about the main three reasons for the symptom.

### 1. Androgenetic Alopecia:

This is a kind of inherited pattern hair loss. We can say that it's the most common cause behind maximum men and women suffering from hair loss.

### 2. Alopecia Areata:

This is another type of hair loss in which the immune systems attacks the hair follicles.

### 3. Traumatic Alopecia:

We can say this sort of hair loss as people's own creation. Braiding and Chemical Treatment of hairs can cause this symptom. Applications of hot rollers and other appliances can affect hair follicles and stop natural production of hairs, hence producing baldness.

At Beverlyhillhr.com our main concern is to drag out patients form this traumatic situation. We are working on our own principle. Beverly hills hair restoration has certainly propelled all of our patients to live their life happily from ever before. We only schedule one to two patients per day, so that we can pay attention on patients individually. In the other hand we can improvise our work efficiency. At Beverly hills hair restoration we perform hair transplantation exclusively. We are highly concerned about our patients and staffs health standards. This is why we are working above the safety procedures required to be performed at a medical clinic. We assured patients the highest quality and most consistent hair transplantation through Beverly hills hair restoration.
