

## BONDING IS BACK! Turning Heads with Every Star-Studded Smile!

More often than not, we don't have time to sit in a dentist's chair being poked and prodded just to look like an A-list celebrity. Now, quick, easy, painless and inexpensive dental procedures that offer star-quality results are at your fingertips. Just ask Dr. Jeff Golub-Evans, renowned NYC cosmetic dentist with a star-studded practice at the New York Center for Cosmetic Dentistry. His procedures promise smile-envy without breaking the bank!

Composite Bonding – A practice that Dr. Golub-Evans revamped and revived and here's why. Much less invasive than veneers, and only one appointment is needed. No drilling involved, therefore no shots are given, and no pain! No post-treatment sensitivity. Bonding is a sculptable material and can be flexible and changed throughout the years. The cost for composite bonding is 1/2 the cost of veneers

Paint & Bake – An innovative bonding maintenance-must created by Dr. Golub-Evans to lift stains off old bonding to rejuvenate the smile. How it works? A Diamond Dust Polishing Paste, specially formulated "whitening cocktail" is applied to remove stains, taking years off your smile in just a matter of minutes. Then, a 20-minute Zoom bleaching session to brighten old bonding, revealing a natural, pearly white finish up to 6 shades lighter. Finally, a gentle painting and baking of the new bonding layer. The procedure is 1/3 the cost of new bonding and will last about 5 years

More on Dr. Jeff Golub-Evans:

Hailed as the "Guru of Cosmetic Dentistry" by Vogue magazine, Dr. Jeff Golub-Evans has sculpted over 500 smiles that have appeared on the covers of fashion and beauty magazines and was listed by New York Magazine as the top cosmetic dentist in New York. He has appeared on numerous news and talk shows, including Live with Regis and Kathie Lee, The Today Show, Good Morning America and more.

His Manhattan based practice, the New York Center for Cosmetic Dentistry is a full service cosmetic and general dental office specializing in creating beautiful smiles and providing Smile Rejuvenation procedures that offer a unique therapeutic way to improve your smile with services like Laser Tooth Bleaching, Hydro-Gum Massage, and Floss & Gloss. Dr. Golub-Evans is also the Director of Cosmetic Services for New York University's Center for Continuing Dental Education, and is a past president of the American Academy of Cosmetic Dentistry.

More than just a cosmetic dentist, Dr. Jeff Golub-Evans is an artist who has been featured nationally and internationally. He is a watercolorist and collagist whose works have appeared on New York gallery walls, in Arizona, Massachusetts, California, Illinois, Florida, Connecticut and at several national museums including the Museum of Modern Art in New York City. Most recently his art has been acquired by the National Museum in Ubud, Bali in Indonesia.

Born in New York City to a Fauvist painter, Jeff has studied and taught at the National Academy of Fine Arts and New York University. Extensive travel in the United States, Europe and Asia and a desire to capture the mood and rhythm of each location greatly influence his work. Dr. Evans often seeks out local materials to incorporate their energy into his art, including paint, paper and especially, water – from the Mississippi, the Atlantic Ocean, Vermont streams and Venetian canals.

The variety of media Jeff has mastered is impressive. From acrylic, pen and ink, pencil and watercolor to collage, woodcut and linoleum, the artist's choice of media is always driven by his concept for the work. Subjects have included the Vietnam War, injustice, hope, heritage, beauty, transformation, spirituality and the transcendence of time.
