

## LG KG800 Pink: Smart Phone

The LG K 800 Pink mobile phone with its striking and attractive design has succeeded in grabbing the hearts of the users. The KG800 Chocolate handset has a rectangular shape that is vaguely reminiscent of a chocolate bar. The sleek form factor and straight lines of the phone are familiar as is the basic black colour scheme. The handset with a dimension of 3.7x1.9x0.6 inches is comfortable for the user to hold in hand and carry in pocket. The KG800 model has a display with a lower resolution than the VX8500. The screen of the model is more difficult to see in direct light and disappears completely when the backlight is off. The user of the handset can comfortably change the backlighting time, the font colour, and the brightness of the handset.

For menu navigation, the KG800 Pink from LG uses the quirky touch-sensitive controls found on the VX8500. But instead of arranging the controls in a wheel, the phone puts them in a square. The handset comes with striking features including a media players and camera. A covered headset jack and a dedicated control for launching the camera and the MP3 player sit on the right spine, while a sole volume rocker is on the left spine. The camera lens, flash, and self-portrait mirror are on the rear face of the slider, which makes it easy to take perfect pictures.

While somewhat slippery, the keypad buttons are easy to use and have a slightly better design than on the VX8500. The LG KG800 Pink handset has a phone book that holds 1,000 contacts with room in each entry for four numbers and an e-mail address. This helps the user to save contacts to groups, pair them with a photo, or assign them one of 44 polyphonic ring tones. Other basics include a vibrate mode, a voice recorder, text and multimedia messaging, an alarm clock, a calculator, a unit converter, a world clock, a calendar, and a memo pad. The handset also has Bluetooth connectivity, e-mail, and USB data storage and transfer capability that ensure easy connectivity and data transfers.

The LG KG800 Pink mobile phone comes with a music player that assures the users of perfect musical experience on the handset. The attractive 1.3-megapixel digital camera takes pictures in five resolutions making it stunningly perfect. The LG KG800 Pink handset has a battery with a talk time of hours and a standby time of 8.3 days.
