

Sony Ericsson S500i: Striking Features Make It Stunning

The stunning Sony Ericsson S500i is a totally fashion and style conscious mobile phone that definitely turn heads wherever it goes. The handset equipped with many fun and useful features comes in a choice of two colours including an intriguing mysterious green colour and a glamour spring yellow colour. The S500i comes with a smooth slide opening mechanism which when opened reveals the sleek keypad. The handset measuring 99mm x 47mm x 14mm and weighing a total of 94 grams makes it feel good to hold in hand and carry in pocket.

The S500i has a large and clear screen that could display upto 262,000 colours on a 240 x 320 pixels resolution screen. The attractive feature of the handset is the built-in 2 megapixel camera complete with dedicated menus, 4 x digital zoom and direct interaction with the phone's messaging services. The camera assures the users of perfect pictures with excellent quality. The handset supports the user to enjoy video recording and video streaming on it.

This model handset from Sony Ericsson comes with a built-in media player that assures the users of the perfect musical entertainment. The user can download and store his favourite music on the mobile phone. The mobile phone comes with the PlayNow™ download service that allows the user to download the music within three clicks of a button.

The Sony Ericsson S500i phone supports both EDGE and Bluetooth® technology that makes it more sophisticated. The built-in Bluetooth wireless technology ensures the users of easy and fast data transfers. This model from Sony Ericsson comes with a battery that provides approximately three hundred and seventy hours of standby time or approximately nine hours of talk time from a full charged battery. The mobile phone comes with a memory slot which allows the user to expand their phone's memory further by adding a Micro™ M2™ memory card. The user can send and receive messages including multimedia messaging, text messaging and email that bring him more closely to the family and friends. The handset also has the capacity to download Java games, making it dearer to the game loving users.
