

## High Roller Bonuses

High Roller Bonuses are perhaps one of the most beneficial bonus offerings for a first time player to an online casino, but mainly for those who may afford them. Usually with the High Roller Bonuses offered by the Playtech Online Casinos you will find that they are usually a 50% High Roller Bonus with the more reputable Playtech Online Casinos.

When I chose to promote the High Roller Bonuses there were factors that I took into account and then based my judgments on those factors as to what Playtech Online Casinos that I would promote for these bonuses. I took a look at both the online casinos from Casino Pays which represent online casinos such as SkyKings Casino and Joyland Casino as well as Euro Partners which represent online casinos such as the Vegas Red Casino and Casino Europa.

Comparing the two it didn't take me too long as to which Playtech Online Casinos that I would decide to promote. The main difference was that Casino Pays online casinos in reality were only 12.5% bonuses while the Euro Partners were 50% bonuses. It would not be to a players advantage to make a 4000 £/€/€\$ first deposit just to get a 500 £/€/€\$ 12.5% High Roller Bonus when you could make a 1000 £/€/€\$ first deposit and get a 500 £/€/€\$ 50% High Rollers Bonus.

Another deciding factor was the play through requirements for the High Roller Bonuses both offered by Casino Pays online casinos and the Euro Partners online casinos. With the Casino Pays the play through requirements for their High Roller Bonuses were 30 X for the bonus portion and deposit while for the Euro Partners the play through requirement were 18 X for the bonus portion and deposit prior to cashing out any winnings.

Calculating 30 X a 4000 £/€/€\$ deposit and 500 £/€/€\$ High Roller Bonus at 135,000 £/€/€\$ as opposed to 18 X a 1000 £/€/€\$ and 500 £/€/€\$ High Roller Bonus at 27,000 £/€/€\$; it didn't take me long to decide which High Roller Bonuses offerings that I would promote. I would almost call the terms for the play through requirements on average by the Casino Pays online casinos to be predatory in the sense that they are trying to exploit new players to their online casinos.

There was still one other difference though and that was with the playing through requirement for the High Roller Bonuses with certain jurisdictions with the Euro Partners online casinos. For certain jurisdictions there requirement for play through was 50 X the deposit and High Roller Bonus amount prior to any winnings being withdrawn. To me this is no major concern as you will find that most online casinos will have restrictions for certain jurisdictions when it comes to the play through requirements for most bonus offerings.

So overall if you are thinking of taking High Roller Bonuses that are offered by the different Playtech Online Casinos you should first consider a few factors prior to taking them. Best of luck if you are one that likes to play the High Roller Bonuses.
