

Law of Attraction and the Millionaire Mind

Wouldn't it be great to have all the money in the world, be able to buy all the things you desire and help those who are less fortunate than you are?

Of course it would. But ...

You are reading this article because YOU are most likely having a very hard time making money, paying your bills and having much left at the end of the month, right? You are in a constant struggle and WAR with money, aren't you?

Most people on this planet have a very hard time when it comes to making and having an abundant supply of money. Most are living at the poverty level or very close to it.

Does it have to be that way? No, it doesn't.

Is it inevitable? No, it isn't.

It is certain that you came to notice a group of people who seem to have all the money in the world, and are able to afford just about anything they desire.

And it goes beyond that. These selected group of people are more and more prosperous, wealthier and wealthier every day. We are referring to the millionaires, multimillionaires and billionaires!

Why is this so? Simply because 'these people have the so called Millionaire Mind, that mind which entertains only beliefs and thoughts of wealth and riches, abundance and prosperity. Because of their difference in 'mentality', the 'rich get richer, and the poor get poorer'. That is a cosmic truth. It cannot be any other way.

The Law of Life is the Law of Belief, also known as the universal Law of Attraction. "Whatever YOU deeply believe, YOU will sooner or later materialize as your physical reality".

The super rich have what is known as the "Millionaire Mind". And the billionaires have the Billionaire Mind.

The poor have that "Poverty Consciousness", the "Poverty Mind".

Maybe you read that before. And like most "intelligent" humans, you said to yourself "That's absurd!". You think you are SO SMART, right?

The super rich ONLY believe in success, abundance, prosperity, wealth, riches, millions of dollars. They ONLY think in terms of success. They NEVER think in terms of failure. And the universal Law of Attraction gives them EXACTLY what they believe: success, abundance, prosperity, wealth, riches, millions of dollars! They cannot be poor because they do not believe in any financial lack or limitation. They can only become RICHER because they believe in RICHES.

In sharp contrast to these super rich people, the poor people believe in lack, limitation, scarcity, poverty, more lack and more financial limitation. The poor people can only become POORER because they do NOT believe in RICHES. The way they believe and think all day long is totally opposite to the way the super rich believe and think all day long.

The poor are constantly thinking on not having enough to survive until the end of the month, and in their minds they are constantly imagining all sorts of future events where they see themselves experiencing lack and all sorts of financial limitations.

The super rich are constantly thinking on ways and means to increase the wealth and riches they already possess. And they constantly rehearse all sort of FUTURE successes in their minds. In their minds they are constantly succeeding and having more and more money, riches and wealth.

The universal Law of Attraction gives to each of these two groups TWO completely different results. But there is a COMMON denominator.

Did you already figure out what that COMMON denominator is?

The answer is very simple: the COMMON denominator is that each group is receiving from Life, the Universe, EXACTLY what they BELIEVE.

God, Life, the Universe, the Creative Force are simply MIRRORS reflecting back to each person what he/she believes.

The rich BELIEVE in getting RICHER and they DO!

The poor BELIEVE in more financial struggles, lack and limitation and they get POORER!

And there is something else that happens as a consequence to the Law of Attraction: each group behaves, takes actions and get results in PERFECT harmony with what they BELIEVE and THINK ABOUT all day long.

This is another aspect of the universal Law of Attraction that MOST humans do NOT understand:

What YOU do, how YOU behave and the results YOU get depend EXCLUSIVELY on what you BELIEVE and THINK ABOUT all day long.

What would happen if, SOMEHOW, you could eliminate from your mind all beliefs and thoughts of failure, and financial lack, limitations and struggles?

What would happen if, using some TECHNIQUE, you could ONLY start believing and thinking about success, winning, wealth and riches?

What would happen if you could, somehow, transplant into your brain cells all the beliefs, values, rules, attitudes and behaviors of the super rich?

If you could do that, would you get poorer or RICHER?
