

## Nokia N82: A slick handset from the Nokia N Series.

The world has seen various high-end mobile phones from Nokia - a major Finnish giant. Quite a few mobile phones have been recently launched by Nokia in recent times. However, the N series from Nokia is one of the most appreciated series of mobile handsets that have captured the fancy of the tech-savvy users in recent times. The handsets from the N series come bundled with the latest features and the best in functionalities. One of the most stylish phones from this great series is the Nokia N82.

The Nokia N82 is 3G ready Quad-Band GSM mobile phone. This smart mobile piece is available in the measurements of 112 x 50.2 x 17.3 mm. The weight of this handset is just 114 grams. This gadget is equipped with a 16 million colour TFT screen that comes in the size of 2.4 inches and supports a resolution of 240 x 320 pixels. The phonebook can hold almost unlimited phone entries and photocalls. This handset has an internal memory of 100 MB and the users can also implement a microSD card that can augment the external memory by up to 2GB.

This gadget is powered with an ARM 11 processor, 256 MB NAND memory, 128 MB SDRAM memory, 90 MB of free executable memory, and Symbian 9.2 Operating System. This mobile machine holds various connectivity options such as GPRS, EDGE, HSCSD, 3G HSDPA, and Wi-Fi with UPnP technology, Bluetooth and USB. The users can avail this smartphone in two sparkling colours i.e. Shining Silver and Glossy Black. This superb device comes with a 5 megapixel digital camera that is capable of shooting great pictures with great videos. The camera supports the resolution of 2592 x 1944 pixels with Carl Zeiss optics, autofocus, and xenon flash. The users can also make video calls and messages using the built-in secondary camera.

Beside these features, the N82 holds other mind blowing options as well. These features include e-mailing, instant messaging, web browsing, built-in GPS, motion sensor, Java MIDP 2.0, music player, video player, 3.5 mm audio output jack, TV out, Stereo FM Radio and many more. The power for this phone is generated by an incorporated standard Li-Ion 1050mAH battery that supplies a talk time of up to 4 hours and the standby time of up to 225 hours. The [Nokia N82](#) is really a superb phone.
