

LG KE850: A fashionable mobile handset

LG KE 850 Prada is a designer phone - a joint effort of LG in collaboration with the fashion house of Prada. The handset features advanced mobile telephony features that combine the best in technology and fashion. The handset comes with a tactile slide opening mechanism that one cannot but rave about. The ergonomic keypad of the phone would attract the attention of the users who crave for style with usability.

The LG Prada is a highly desirable handset and comes with an advanced touch screen interface. The handset boasts of a large 3 inch high colour screen. The wide LCD TFT screen of the handset unfurls up to 262K colours with a high resolution. The touch screen menu interface of the phone runs on the Macromedia Flash interface which is highly usable. This slider phone is only 85 grams in weight and measures 98.8x54x12mm. Therefore, the size of the handset is such that it can easily fit into the pockets of the users.

The built-in music player allows users to play foot tapping music on various file formats. The integrated FM radio keeps the users updated with the latest in news, music, sports and weather. Moreover, users can download all the latest ring tones for a lively experience while using the LG Prada mobile handset.

The handset comes integrated with a 2 megapixel camera that allows users to click still pictures and record video clips. The camera of the phone is backed with the Schneider Kreuznach lens that provides clear and perfect imaging experience to the users. Moreover, the phone is backed with video capabilities that enable the users to record, play and store the video clips on the handset.

With the help of high-end connectivity options such as Bluetooth, USB, GPRS and EDGE, users can enjoy sharing of multimedia content including pictures, music and video clips with loved ones at a fast rate. The [LG KE850](#) also provides the users with an access to its web browser, which they can use whenever they need to access the internet.
