

E-Myth - Small Business Coach

Starting a business on your own and running it successfully is a great achievement. Not every business is successful and not every businessman knows how to successfully run his business. What is the success formula or the tricks of trade which can actually define a successful business? Is it possible or is it a foolproof formula for [Business Development Solutions](#)? Where and how is it available?

Before we unveil the success formula let us first take a quick look at the latest statistics about new businesses started and their success rates in Australia. About 100,000 people start their own business in Australia and New Zealand every year and around 40% are out of business by the end of the year and in less than five years almost 77% closed down their business or failed miserably or declare as gone bankrupt. The next five will bring down yet another 22% of the surviving business concerns. Finally to make it short only 18 out of the top hundred businesses survive and 82% fail in their dream project.

How can so many people fail and what are the reasons behind this failure? Everyone should have done their field work, planned efficiently, invested wisely and most of all worked hard to make the business successful. They had been knowledgeable in their own business idea but the lack of proper guidance and implementation skills is what must have gone wrong. They had failed to understand the business of business and they allowed their lives to be ruled by their business.

[E-Myth Consulting](#) Mastery is a power business development program designed and formulated by Ted Bonel a very successful businessman who actually follows what he preaches. He says that he had invested around twenty five long years to acquire the right skills on business marketing and development that can make any business successful. He is ready to take any business from where it is to where the owner of the business wants to go and that too in light speed.
