

San Diego Artificial Turf

We are all familiar with the term curb appeal, the buzz word in re-sale of homes. Realtors know the first impression of a prospective homebuyer is the most important. Additionally, every homeowner wants the most coveted lawn in the neighborhood. When the cars slow down, and the neighborhood "walkers" stop and ogle, you know you have the yard. With San Diego California's environmental concerns, having the perfect lawn can be a challenge. For one thing water is scarce and expensive. Artificial turf is cost effective. Usually, a synthetic lawn installation will pay for itself well within the warranty period of the turf. Add mowing, fertilizer, and gofers, and you have an even bigger challenge, unless you have artificial grass.

The perfect answer to growing, mowing, and environmental problems is artificial grass. Artificial lawns look and feel like natural grass. They can withstand the harshest weather and will stay uniform ally beautiful year 'round. No more pesticide or herbicides! A product like Home Turf is soft and is a great idea with kids since it is allergen free and a great shock absorber. No matter what your application, Home Turf certainly offers a type of synthetic turf that is well suited (even created for) your specific application. Approximately 70% of people who install an artificial grass lawn in San Diego do so because they have dogs. With Home Turf, animals can't dig through it and it is resistant to bacteria; artificial grass is non-toxic and provides no home for fleas. Simply hose down the area (even though you might feel a little silly watering your fake grass) after picking up after your pet.

If you live in the San Diego area, including Sorrento Valley, Scripps Ranch, Poway, Rancho Penasquitos, Santa Luz, Rancho Bernardo, Carmel Mountain, Carmel Valley, Rancho Santa Fe, Del Mar, La Jolla, University City, Clairemont, Mira Mesa, La Mesa, Santee, El Cajon, Northpark, Hillcrest, Old Town, Mission Hills, Point Loma, Ocean Beach, Mission Valley, Pacific Beach, Mission Beach, Bay Park, Linda Vista, College Grove, Normal Heights, Coronado, San Carlos, Del Cerro, Allied Gardens, Serra Mesa, Linda Vista, Home Turf serves your area. Look for San Diego water rebate programs for synthetic lawns currently being offered in a select number of areas within San Diego. Around San Diego, different water districts are paying for about \$1 of the installation cost for homeowners in order to incentivize them to install synthetic grass lawns and save precious water. Essentially this makes the installation more affordable for home owners.

Artificial lawns go by a number of terms: synthetic grass lawns, artificial grass lawns, synthetic turf, artificial turf, fake turf, fake grass, putting green, putting greens, synthetic putting greens, artificial putting greens, easy turf, Home Turf, waterless grass. Whatever term you use, an artificial lawn will give you years of lush looking maintenance free lawn and leave you more time and money to do things you really enjoy.

Another great way to use artificial grass is for artificial putting greens. Home Turf's synthetic putting greens provide convenient and inexpensive entertainment for friends and family. Playing little games with family and friends when they come over or just relaxing and enjoying five minutes to yourself after a long day of work just before dinner. Your private putting green will have a true roll and play like a natural bent grass putting green. Artificial turf has commercial applications as well. Sports fields, golf courses, and any other practical use for commercial synthetic grass. Homeowners in the San Diego area with swimming pools often install Home Turf's synthetic grass around the perimeter. No more muddy or brown patches around the pool, just beautifully manicured maintenance free realistic artificial grass.
